## October newsletter

In this edition, find out about:

- What we did at **#EURegionsWeek**
- **Peer review** service still open for applications
- Our journey over the past **30 years**
- The latest **policy briefs**
- A **job opportunity** in our communication team
- Our programme's **external evaluation results**
- More latest news and upcoming events...

## Interreg Europe at #EURegionsWeek

## Summing up #EURegionsWeek

We were really busy at this year's virtual #EURegionsWeek. Everyone from our

programme representatives, the Policy Learning Platform experts, and many of our projects was actively involved. If you missed any of the live sessions or want to catch up, there's good news. The video recordings are now available. Have a look! [>>>](#)

## Apply to our peer review service

Let our Policy Learning Platform help you tackle policy challenges specific to your region. Our experts and your peers have useful advice to share. Apply for a peer review now! [>>>](#)

**Interreg**  **30 years together**

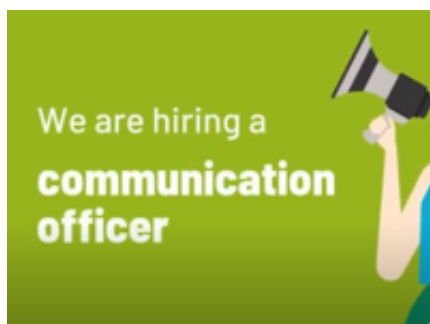

## Our journey with Interreg

Interreg is 30 years old. To celebrate this big milestone, we take stock of our past contributions to the initiative and look forward to making cooperation better in the future. [>>>](#)

## The three latest policy briefs

Find out what the latest analyses of our thematic experts say about [innovation networks](#), [energy self-consumption](#), or [business transfers for sustaining jobs](#). Or check other briefs in knowledge hub. [>>>](#)

## Come and work with us

We're looking for a communication officer with a focus on community management and digital outreach as a maternity cover. Could it be you? [>>>](#)

## We keep coming out on top

Independent evaluators confirm once again that our programme performs very well. According to them,

we're on our way to exceeding our objectives! Check out the key findings. [>>>](#)

**MARIE**  
Interreg Europe

MARIE promotes responsible research and innovation in key sectors. By supporting quadruple-helix governance, open innovation and corporate commitment to responsibility, the project helps to create smart, sustainable and inclusive regions.

**Featured project**

Every month, we feature one of our projects. Take the opportunity to learn how MARIE promotes responsible research and innovation in key sectors. [>>>](#)
