November newsletter

In this edition, you can find out about:

- An event on benefits of our Platform's policy-learning services
- The second round of thematic networking events
- The first round of networking events' follow-up
- Tips for improving your community profile
- The peer review call timing
- A webinar on integrated mobility
- More latest news and upcoming events...

Benefits of policy learning

On 5 December, our Platform holds an online event presenting their services and concrete examples of their contribution to better policymaking in Europe. You will also hear from the OECD and Apolitical on how skills, knowledge and powerful networks help in improving policies. Register and join us at 14:00 CET! [>>>](#)

Keep on networking

Don't miss the second round of our thematic networking events! Get our tips for the second call and start building your project partnerships. [>>>](#)

Help us improve your networking

Tell us what you think about the first round of networking in Smart and Social topics. Fill in the evaluation form and access the event material. [>>>](#)

Increase your partner search chances

Find out how you can make your Interreg Europe community profile more effective for connecting with potential project partners in three simple steps. [>>>](#)

Last chance for an early peer review

You have only a few days left to submit your peer review application to have it by mid-2023. Applying is short and simple. Do it by 30 November. [>>>](#)

Learn more about integrated mobility

Are you looking for solutions for better integrated mobility services? Join our webinar on mobility as a service on 13 December at 14:00 CET. [>>>](#)

Featured result

Every month, we highlight one result from our projects. This month, let's look at [ESSPO](#). See how the project helped the Estonian city of Tartu to become an entrepreneurial city. The SPARKDemo Center has become a showroom for entrepreneurs and incubation which now serves as a good practice! You can read about this result and many more on our website. [>>>](#)
